Goliath® Gel

Contains 0.05% w/w (0.5g/kg) fipronil
A ready to use insecticidal gel bait for the control of cockroaches in public hygiene.

STATUTORY CONDITIONS RELATING TO USE
FOR USE ONLY AS AN INSECTICIDE
FOR USE ONLY BY PROFESSIONAL OPERATORS.
FOR INDOOR USE ONLY.
APPLICATION RATE: Up to 3 x 0.03 g of product per square metre depending on species present and level of infestation. A spot of gel 3–4 mm in diameter weighs approximately 0.03 g.
The (COSHH) Control of Substances Hazardous to Health Regulations 2002 may apply to the use of this product at work - UK only.
USE ONLY in positions inaccessible to children and animals.
DO NOT USE where food, feed or water could become contaminated.
DO NOT APPLY in or around drains.
This product contains substances which are known to be hazardous to the environment. Do not contaminate ground, waterbodies or watercourses with chemicals or used container.
This material and its container must be disposed of in a safe way.

HARMSFUL TO AQUATIC ORGANISMS, MAY CAUSE LONG-TERM ADVERSE EFFECTS IN THE AQUATIC ENVIRONMENT. To avoid risks to man and the environment, comply with the instructions for use.
Goliath® Gel 4 x 35 g

Contains 0.05%w/w (0.5 g/kg) fipronil

A ready to use insecticidal gel bait for the control of cockroaches in public hygiene.

HARMFUL TO AQUATIC LIFE WITH LONG LASTING EFFECTS.

To avoid risks to human health and the environment, comply with the instructions for use.

STATUTORY CONDITIONS RELATING TO USE

For use only as an INSECTICIDE

For Indoor Use only

APPLICATION RATE: 2 – 3 g of gel per square metre depending on species present and level of infestation.

The (COSHP) Control of Substances Hazardous to Health Regulations 2002 may apply to this product at work

- UK only

Use only in positions inaccessible to children and animals.

Do not APPLY or in run-off waters.

This product contains substances which are known to be hazardous to the environment. Do not contaminate ground, surface waters or aquatic life.

If material and its container is disposed of in a safe way

READ ALL PRECAUTIONS BEFORE USE

HSE No: 05/14

PCS No: 94727

This product is approved under The Control of Pesticides Regulations 1986 (UK only) for use as directed.

DIRECTIONS for use

Goliath® Gel is effective against German cockroaches (Blattella germanica), Oriental Cockroaches (Blatta orientalis) and American Cockroaches (Periplaneta americana) both as nymphs and adults.

Goliath® Gel may be used to control cockroaches in:

Domestic premises (including kitchens)

Commercial and Industrial premises such as factories, shops, workshops, aircraft, vehicles, railway stock and ships.

Domestic premises (including kitchens)

WASH HANDS AND EXPOSED SKIN before meals and after use.

WASH ANY CONTAMINATION from skin or eyes immediately.

Goliath® Gel cartridges are designed to be used with the BaitGun® or similar applicators. Lock the Goliath® Gel cartridges aged designed to be used with the BaitGun® or similar applicators. Lock the Goliath® Gel cartridges safely. Do not attempt to open or re-fill.

High rate

German cockroach: one spot of 0.03 g gel per square metre

Normal rate

Treated areas should be re-inspected after 1-2 weeks. Where initial infestation was severe a second Goliath® Gel application may be required if the first treatment has been consumed and live cockroaches are still present.

Rate of application

In cases of severe infestation and in areas that are particularly dirty or cluttered or where alternative sources of food cannot be entirely eliminated use the highest rate of application

Normal rate

German cockroach: one spot of 0.05 g gel per square metre

Oriental or American cockroach: two spots of 0.05 g gel per square metre

High rate

German cockroach: two spots of 0.05 g gel per square metre

Oriental or American cockroach: three spots of 0.05 g gel per square metre

A spot of 0.05 g is approximately 3 – 4 mm in diameter

STORAGE AND DISPOSAL

Store Goliath® Gel cartridges in the original box away from extremes of temperature. When empty dispose of the cartridge safely.

PRECAUTIONS

WASH HANDS AND EXPOSED SKIN before meals and after use.

Keep out of the reach of children.

To avoid risks to man and the environment, comply with instructions for use.

For the classifications not written out in full in this section, including the indication of danger, the hazard symbols are the R-phrases, and the hazard statements, the full text is listed in section 16.

SECTION 4: First Aid Measures

4.1. Description of first aid measures

Remove contaminated clothing.

If inhaled: Keep patient calm, remove to fresh air. If not breathing, provide artificial respiration. If breathing is difficult, give oxygen. Keep warm and at rest.

If swallowed: Do not induce vomiting.

If skin or clothing is contaminated: Remove contaminated clothing and wash immediately with soap and water.

The substances/groups of substances mentioned can be released in case of fire.

3. Special protective equipment

Special protective equipment: Wear well-ventilated breathing apparatus and chemical protective clothing.

4.3. Indication of any immediate medical attention and special treatment needed

Treatment: Symptomatic treatment (decontamination, evacuation, intubation).

5. Fire-Fighting Measures

5.1. Extinguishing media

Suitable extinguishing media: water, spray, carbon dioxide, foam, dry powder

5.2. Special hazards arising from the substance or mixture

Fire behaviour: Non-flammable, Does not burn, Does not support combustion

6. Accidental Release Measures

6.1. Personal protective equipment, protective equipment and emergency procedures

Use personal protective clothing. Avoid contact with the skin, eyes and clothing. Do not breathe vapours.

6.2.Environmental precautions

Do not discharge into the aquatic environment. Do not discharge into drainage/waste systems.

6.3. Methods and material for containment and cleaning up

For small amounts: Pick up with suitable absorbent material. Do not breathe vapours.

7. Handling and Storage

7.1. Precautions for safe handling

No special precautions necessary.

7.2. Conditions for safe storage, including any incompatibilities

Segregate from foods and animal feeds.

Further information on storage conditions: Keep away from heat, protect from direct sunlight.

8. Exposure Controls/Personal Protection

8.1. Control parameters

Components with occupational exposure limits

8.2. Exposure controls

Personal protective equipment

Respiratory protection: Respiratory protection not required.

Hand protection: Suitable chemical resistant safety gloves (EN 374) also with prolonged, direct contact (Recommended) Protection index 6, corresponding to > 480 minutes of permeation time according to EN 374.

Eye protection: Safety glasses with side-shields (Frame goggles) (e.g. EN 166) Body protection

Body protection must be chosen depending on activity and possible exposure, e.g. apron, protecting boots, chemical protection suit (according to EN 14055 in case of spills or EN 13034 in case of dust).

Body protection and hygiene measures

In accordance with good industrial hygiene and safety practices. Washing of closed work clothing is recommended. Store work clothing separately. Keep away from food, drink and animal feeding stuffs.

8.3. Specific use(s)

For the relevant identified use(s) listed in Section 7 the advice mentioned in this section 7 is to be followed.
**SECTION 10: Stability and Reactivity**

10.1. Reactivity

- No hazardous reactions if stored and handled as prescribed.

10.2. Chemical stability

- The product is stable if stored and handled as prescribed.

10.3. Possibility of hazardous reactions

- Not applicable.

10.4. Conditions to avoid

- Avoid contact with strong bases, strong acids, strong oxidizing agents.

10.5. Incompatible materials

- Substances to avoid: strong bases, strong acids, strong oxidizing agents.

10.6. Hazardous decomposition products

- Substances to avoid: strong bases, strong acids, strong oxidizing agents.

**SECTION 11: Toxicological Information**

11.1. Information on toxicological effects

Acute toxicity

- The product has not been tested. The statement has been derived from the properties of the individual components.

11.2. Toxicity of the product

- The product has not been tested. The statement has been derived from the properties of the individual components.

11.3. Inhalation hazard

- Not applicable.

11.4. Skin sensitization

- No evidence of a skin-sensitizing potential.

11.5. Reproductive toxicity

- No reproductive toxicity.

11.6. Aquatic toxicity

- Acute toxicity: Not classifiable as a dangerous good under transport regulations.

**SECTION 15: Regulatory Information**

15.1. Safety and health and environmental regulations

- Not applicable.

**SECTION 16: Other Information**

16.1. Information on ecotoxicological effects

- Not applicable.

16.2. Persistence and degradability

- Not applicable.

16.3. Bioaccumulative potential

- Not applicable.

16.4. Mobility in soil

- Not applicable.

16.5. Results of PBT and vPvB assessment

- The product does not contain a substance belonging to the PBT (persistent/bioaccumulative/toxic) or the vPvB (very persistent/very bioaccumulative) categories.

**SECTION 12: Disposal Considerations**

12.1. Waste treatment methods

- Must be disposed of or incinerated in accordance with local regulations.

12.2. Other relevant toxicity information

- Additional information: Other ecotoxicological advice. Do not discharge product into the environment without control.
